

"MOVING FORWARD"

BS Mobiel is a wonderful school at which everyone is welcome.

The wellbeing of our pupils is our top priority and we believe that by building a strong relationship with our pupils, we create the warm and secure environment in which they can flourish to the fullest of their potential.

At BS Mobiel, we stimulate our pupils to work with a growth mindset, which means that we teach them to take on a challenge, to keep practicing, and to learn from their mistakes. We often ask our students: "What was your best mistake today...?" in order to give them the insight that what they learn from their mistakes only brings them closer to their goals. We believe that this knowledge gives them the confidence to keep trying and to discover that being challenged is a powerful tool.

ENJOY LEARNING

We teach our pupils to enjoy learning. We believe that when children enjoy learning they achieve better results, and better results, in turn, help them to enjoy learning! In addition to the standard curriculum, BS Mobiel offers lessons in various other areas such as technical - and digital skills, music, dance and theatre as well a variety of sports.

BS Mobiel prides itself as being a healthy school, which means that we drink water, eat fruit and stimulate wholesome lunches. A healthy body gives a healthy mind! If you would like to hear more about our school, please call for an appointment. **We welcome you to come and visit!**
